

# Module / top view

DBA annotated concept views / Revision D

## DISPLAY MODULE / TOP VIEW

Window and top button in the current parametric assembly.

### 14 x 16 active display area

Screen and window sizes are concept parameters; readability is unverified.

DBA / REV D | NOMINAL mm | CONCEPT GEOMETRY - NOT A MANUFACTURING RELEASE

44 x 32 mm nominal housing. The top window is 18 x 20 mm with a 14 x 16 mm proposed active area. The display sits beside the physical button. Housing height is 17.5 mm plus 2.2 mm button protrusion.

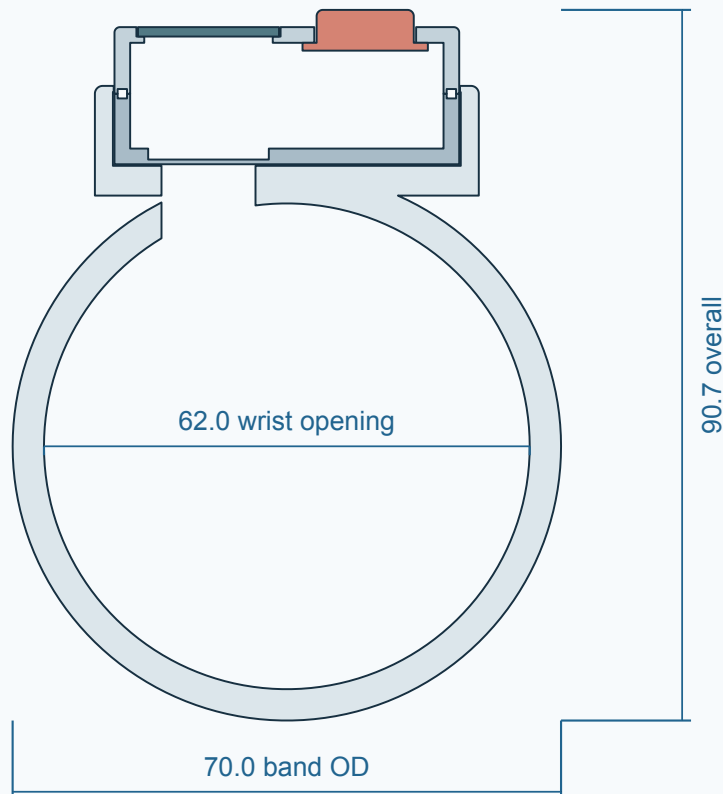

Source: regenerated dba\_cad.py and design-data.json. Nominal concept dimensions in millimetres. Views are not to scale. No manufacturing tolerances or pressure rating are assigned.

# Band / front section

DBA annotated concept views / Revision D

## DISPLAY ASSEMBLY / FRONT SECTION

Centre section from the regenerated STL geometry.

Band width 24 / radial wall 4 / cradle width 37

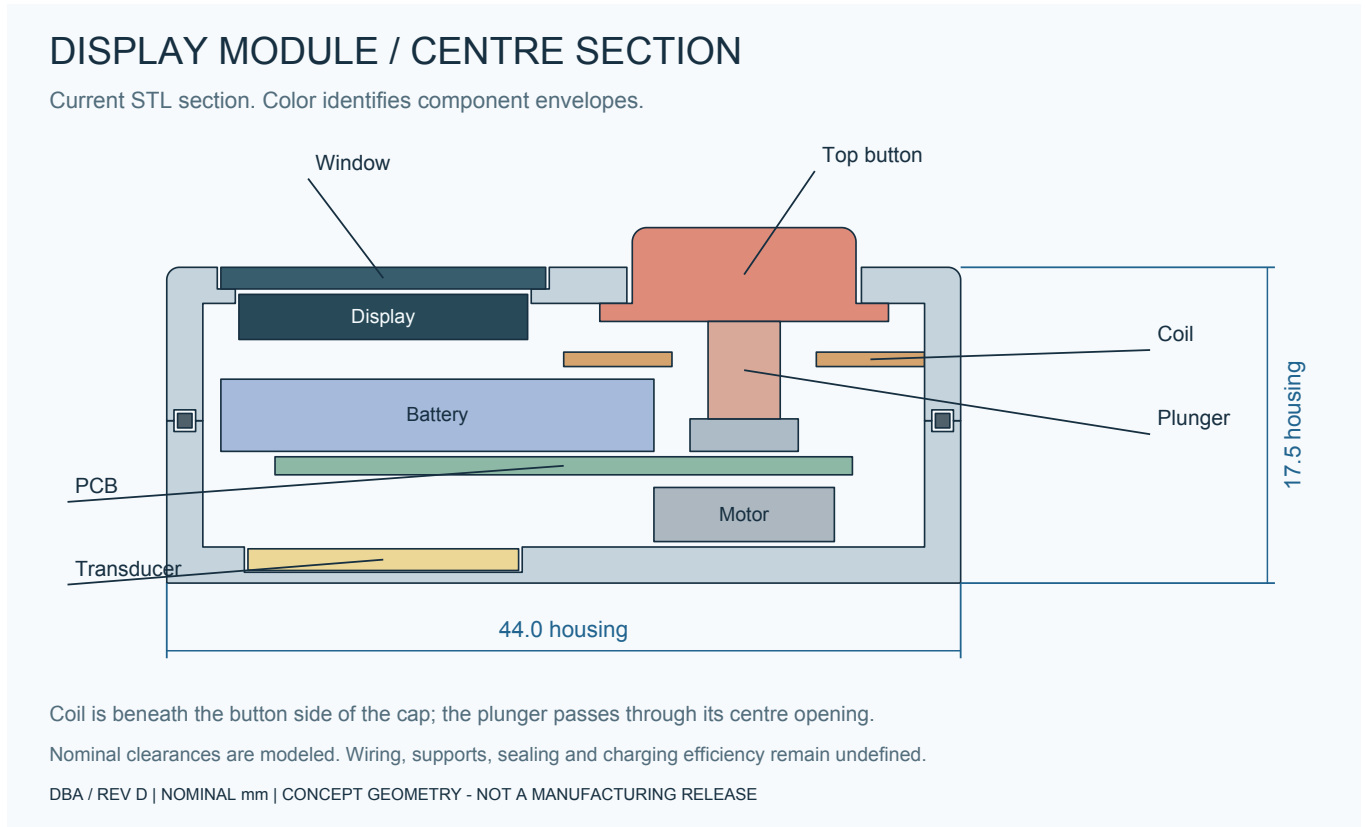

DBA / REV D | NOMINAL mm | CONCEPT GEOMETRY - NOT A MANUFACTURING RELEASE

62 mm relaxed opening, 70 mm nominal band outside diameter, 24 mm axial width and 4 mm radial wall. Overall assembly height is 90.7 mm including the button. Wrist coverage and stretched fit are not demonstrated.

Source: regenerated dba\_cad.py and design-data.json. Nominal concept dimensions in millimetres. Views are not to scale. No manufacturing tolerances or pressure rating are assigned.

# Module / centre section

DBA annotated concept views / Revision D

The section shows the display body and window, button plunger and receiver coil under the opaque button side. These nominal envelopes do not establish sealing, electrical integration, acoustic performance or manufacturing readiness.

Source: regenerated dba\_cad.py and design-data.json. Nominal concept dimensions in millimetres. Views are not to scale. No manufacturing tolerances or pressure rating are assigned.
